

## How to get your Advertisement listed on the Dutch version as well...

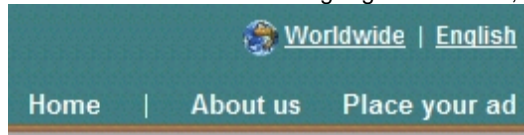

To reach twice as much visitors to your listing we recommend to make your current listing visible on the Dutch version as well.

**Note:** This doesn't mean you have to translate, your listing can be in English, most Dutch are familiar with the language.

Go to: <http://www.algarve-gids.com/gids/>

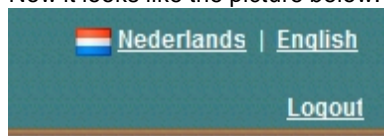

Make sure you are **Logged out!**

Check whether the correct language is selected, standard is "**Worldwide | English**"

Click on **Worldwide** and change to Nederlands

Now it looks like the picture below:

### Log in

On your Account page you will find a **Main Menu** and a summary of your listing(s)

*If you don't see your listings, Click on **View my listings***

You see a summary of your Listings, note the field next to the Logo, under Title, either it's blank or it says **Untranslated!**

Now click on the Icon **Edit listing (2)**

date	Options
8:49:07	<ol style="list-style-type: none"><li>1. View listing</li><li>2. Edit listing</li><li>3. Delete listing (careful)</li><li>4. Add or change pictures</li><li>5. Add or change videos</li><li>6. Add or change files</li></ol> <p><b>Note: 5 and 6 not available with Free listing</b></p>

Now you see the same page as you did while making the English listing with the difference some field descriptions are still in Dutch, this is necessary.

**Now you just have to fill in the fields with the same (or translated) text as you did at making the English listing.**

**Notice that some\*\* of the fields already took over the info from the English version!!**

(\*\* Logo image, Categories tree, Selected categories, Locations, Email, Website.)

Don't forget to **Save changes** by clicking on the button on the entire bottom left of the page.

## Thats it!

Your listing on the Dutch version is ready.
